

# HONDURAS – FOREIGN YOUTH MISSION

## Initial Fact Sheet

**Thursday June 27 - Monday July 8, 2019**

This is a LOCAL MOUNTAIN MISSION. We come to serve, not receive – though the reality is that most of us receive more than we could ever give. It is most important to maintain a disposition of flexibility and humble service. Change is inevitable, especially in Honduras, so it is important to be ready to adapt to the needs of the mission at any given moment. We will serve in villages and local parishes in and around the city of Comayagua for the Diocese of Comayagua. Comayagua is the city in which Missioners of Christ has a community formation house and the Friars of the Renewal have a community home called Casa Guadalupe, which will be your base for dinner, evening programs and sleeping. You will receive orientation, planning and preparation for 3-4 days from our Honduras mission community members then will be broken into smaller teams to reach all the villages we will serve. We serve through home visits, and ministries for the children, youth and adults. This mission is an exciting and life changing opportunity!

You are being invited to participate in the ongoing missionary work of the Missioners of Christ. The nature of our short-term missions tends to be very different from your pre-conceived notion of “mission.” Though the following will be discussed more in-depth during the preparation process, because we want to fully support the ongoing work of the mission (and not disrupt it), there are a few non-negotiables that need to be addressed up front before any individual is to discern his/her participation:

- We are a Catholic Christian mission working in collaboration with various religious orders and Catholic lay communities serving under the authority of the Diocese of Comayagua. In full humility, we fully support and promote all the teaching of the Church. If you have string issues against Church Teaching this is probably not the mission for you.
- We participate in about 3½ hours of prayer daily (including the Mass). All missionaries that serve with us are expected to participate in all aspects of the mission's prayer-life.
- These missions are evangelistic in nature, and though some building/manual labor projects may be included in the mission, these are always secondary to our call to spread the Gospel and fulfill The Great Commission.
- These missions are physically (and at times emotionally) taxing. If you have health problems, it is important to share with your doctor where you are going, and the anticipated nature of the mission, assuring that you will be able to fully participate in this mission.

**Required Pre-Mission Training:** We view the preparation for the mission as critical to the overall effectiveness of what we do, and see the entire process as one of discipleship. With this in mind, we have implemented a pre-mission training program, which involves catechesis, reflection, and logistical preparation. We encourage groups to engage in this process together though it can be done as "independent study". The initial preparation portion concludes with a day of intensive in-country training and team building in Honduras.
